

Course Homepage

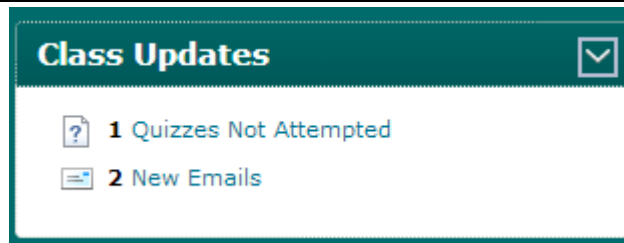

Once you have logged in, and selected your course, you will be taken to the course homepage.

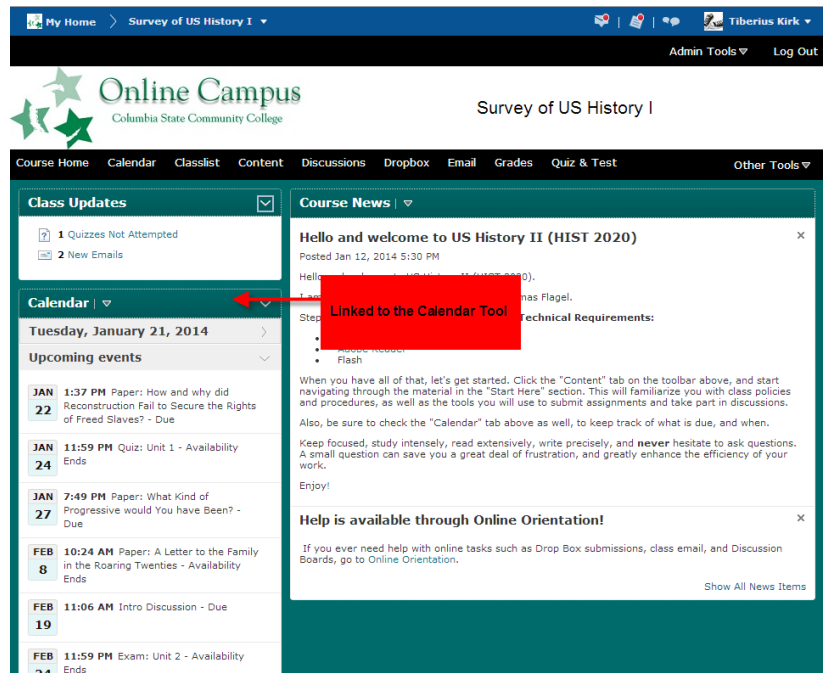

The homepage contains boxes called widgets. The Widgets will update according to what is going on in the class. For example:

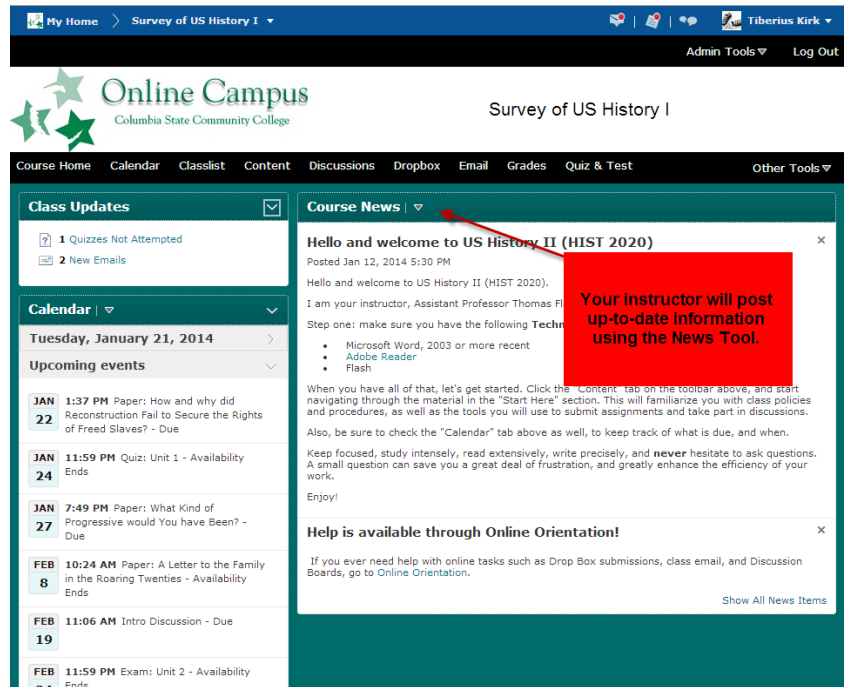

- **Class Update** widget will reflect when items are due, or have become available.

- **The Calendar Events** widget displays what is shown in the Calendar Tool

- **The News** widget is where your teacher will post up-to-date information in the course. You should make sure to check this for updated information every time you log in.

The homepage also contains the mini bar and menu bar which gives you access to all of the other tools in Online Campus. The menu bars are located in the top banner.
