The description states: 'This quiz is open note and open book, however, the complexity of this quiz, and the time limit imposed (45 minutes), require a great deal of familiarity of the material beforehand. Important Notes About Taking Quizzes or Tests:

- If your quiz has a **time-limit** you may be prompted or forced to submit your quiz. **If the quiz is set to auto-submit at the end of the designated time period, only saved questions are submitted.** Make sure you save regularly near the end of the quiz period and try to finish and submit the quiz before the time expires. You should see a time or timer in the upper left corner of the quiz.
 - Your instructor has the option to deliver questions one question at a time and not allow you to revisit the question. It is important to read the instructions prior to taking the quiz or test.
4. Answer the quiz questions by selecting an answer from the list of options or by filling in the appropriate text field.
 5. Click the Save icon  **Save** in the right corner of the question to save your answer. Although there is a Save All option at the bottom of the page, it is recommended that you save each question as you answer in case of technical difficulties.
 6. Click the Next Page  **Next Page** or Previous Page  **Previous Page** icon to navigate between pages if applicable.
 7. Make a habit of clicking the Save All Responses button regularly if there are a lot of questions on a single page or you are working on a time-consuming question.
 8. Click the Go to Submit Quiz button when you are ready to submit.

Note: If you try to submit a quiz with unanswered questions, you see a warning at the top of the Submit Quiz page. Click the links below the warning to return to the answered questions then submit the quiz again.
